U URANIUM 2018

ADELAIDE
5-6 JUNE

#uranium2018

The premier annual event for the uranium industry

In 2018, the premier annual event for the Uranium industry, the AusIMM International Uranium Conference will be in its 13th consecutive year.

The program boasts outstanding keynote speakers and highly experienced industry experts which has been the hallmark of this event. Topics covered will highlight all areas of the sector, including; exploration, development, production, processing, environmental, health and safety and regulatory aspects.

A highly technical conference with engaging speakers and plenty of opportunities to network. We are excited to once again be supported by the South Australian Government Department of the Premier and Cabinet, as our Leading Conference Partner.
